PREVENTIVE MEASURES :

Chnging of life-style is very important.

- Avoid unlimited involvement in complicated matters. Leave unsolved matters on time and fate.
- Meditate regularly, perform praanyam and relevant yoga, live a life without greed for excess.
- Consume no extra salt other than what is in your prepared food. No salty snacks.
- Avoid 'red meat', deep fried snacks, pickles, more sugar even if not diabetic.
- Reduce weight of over-weight, take small, frequent meals, fruits instead of sweet meat.
- Be physically active.
- Sleep for 7 to 8 hours a day.
- Control diabetis with proper treatment.

- Keep mind refreshed by 'addas' and pleasant tours, read good books.
- Reduce consumption of alcohol, quit smoking if possible.
- Take regular measurements of your BP at your physician's clinic; follow strictly the medication prescribed by him, which may change only at the instance of your doctor.
- Subject yourself to periodic health check up, at least twice in a year, maintain a health-card.

Last of all, try your level best and BE HAPPY.
